

The figure displays a scatter plot of 64 numbered points (1-64) on a 100x100 grid. A red line connects a subset of these points in the following sequence: 62, 54, 33, 12, 34, 60, 52, 10, 50, 37, 58, 47, 16, 23, 36, and 1. The points are distributed across the plot, with some clusters and many isolated points.
